A propos de ce livre

Ceci est une copie numérique d'un ouvrage conservé depuis des générations dans les rayonnages d'une bibliothèque avant d'être numérisé avec précaution par Google dans le cadre d'un projet visant à permettre aux internautes de découvrir l'ensemble du patrimoine littéraire mondial en ligne.

Ce livre étant relativement ancien, il n'est plus protégé par la loi sur les droits d'auteur et appartient à présent au domaine public. L'expression "appartenir au domaine public" signifie que le livre en question n'a jamais été soumis aux droits d'auteur ou que ses droits légaux sont arrivés à expiration. Les conditions requises pour qu'un livre tombe dans le domaine public peuvent varier d'un pays à l'autre. Les livres libres de droit sont autant de liens avec le passé. Ils sont les témoins de la richesse de notre histoire, de notre patrimoine culturel et de la connaissance humaine et sont trop souvent difficilement accessibles au public.

Les notes de bas de page et autres annotations en marge du texte présentes dans le volume original sont reprises dans ce fichier, comme un souvenir du long chemin parcouru par l'ouvrage depuis la maison d'édition en passant par la bibliothèque pour finalement se retrouver entre vos mains.

Consignes d'utilisation

Google est fier de travailler en partenariat avec des bibliothèques à la numérisation des ouvrages appartenant au domaine public et de les rendre ainsi accessibles à tous. Ces livres sont en effet la propriété de tous et de toutes et nous sommes tout simplement les gardiens de ce patrimoine. Il s'agit toutefois d'un projet coûteux. Par conséquent et en vue de poursuivre la diffusion de ces ressources inépuisables, nous avons pris les dispositions nécessaires afin de prévenir les éventuels abus auxquels pourraient se livrer des sites marchands tiers, notamment en instaurant des contraintes techniques relatives aux requêtes automatisées.

Nous vous demandons également de:

- + *Ne pas utiliser les fichiers à des fins commerciales* Nous avons conçu le programme Google Recherche de Livres à l'usage des particuliers. Nous vous demandons donc d'utiliser uniquement ces fichiers à des fins personnelles. Ils ne sauraient en effet être employés dans un quelconque but commercial.
- + *Ne pas procéder à des requêtes automatisées* N'envoyez aucune requête automatisée quelle qu'elle soit au système Google. Si vous effectuez des recherches concernant les logiciels de traduction, la reconnaissance optique de caractères ou tout autre domaine nécessitant de disposer d'importantes quantités de texte, n'hésitez pas à nous contacter. Nous encourageons pour la réalisation de ce type de travaux l'utilisation des ouvrages et documents appartenant au domaine public et serions heureux de vous être utile.
- + *Ne pas supprimer l'attribution* Le filigrane Google contenu dans chaque fichier est indispensable pour informer les internautes de notre projet et leur permettre d'accéder à davantage de documents par l'intermédiaire du Programme Google Recherche de Livres. Ne le supprimez en aucun cas.
- + *Rester dans la légalité* Quelle que soit l'utilisation que vous comptez faire des fichiers, n'oubliez pas qu'il est de votre responsabilité de veiller à respecter la loi. Si un ouvrage appartient au domaine public américain, n'en déduisez pas pour autant qu'il en va de même dans les autres pays. La durée légale des droits d'auteur d'un livre varie d'un pays à l'autre. Nous ne sommes donc pas en mesure de répertorier les ouvrages dont l'utilisation est autorisée et ceux dont elle ne l'est pas. Ne croyez pas que le simple fait d'afficher un livre sur Google Recherche de Livres signifie que celui-ci peut être utilisé de quelque façon que ce soit dans le monde entier. La condamnation à laquelle vous vous exposeriez en cas de violation des droits d'auteur peut être sévère.

À propos du service Google Recherche de Livres

En favorisant la recherche et l'accès à un nombre croissant de livres disponibles dans de nombreuses langues, dont le français, Google souhaite contribuer à promouvoir la diversité culturelle grâce à Google Recherche de Livres. En effet, le Programme Google Recherche de Livres permet aux internautes de découvrir le patrimoine littéraire mondial, tout en aidant les auteurs et les éditeurs à élargir leur public. Vous pouvez effectuer des recherches en ligne dans le texte intégral de cet ouvrage à l'adresse <http://books.google.com>

PREFACE.

The Gregorian notation used in this Manual, is in accordance with the official Roman edition, approved by the Holy See. Chevalier Friedrich Pustet has kindly given permission for these extracts to be made from his privileged edition of the Antiphonal. The pointing of the Psalms and *Magnificat* here followed is that of Dr. F. X. Haberl, in his *Psalterium Vespertinum*. For the rest, the Ceremonial of the Society of the Sacred Heart has been strictly followed, and the order of the Feasts, etc., follows as closely as possible that of the Office Book. (*Offices et Prières à l'usage des Religieuses du Sacré-Cœur.*)

It is hoped that by the use of this Manual the children of the Sacred Heart will be able to take their part in singing Vespers. As much as possible to avoid all references, in spite of the repetition entailed, it has been thought best to print the Vespers of each Feast in full; an exception has been made with regard

to the Great Antiphons of our Lady, which are given only once.

A Cantor entones all the Antiphons as far as the asterisk where the rest of the Choir join in. The Psalms can be sung in alternate choirs. The Little Chapter and Versicles are sung *solo*; the Responses, by the choir. All Versicles are *solo*.

In executing plain chant, it is important to bear in mind this fundamental and far-reaching principle; that in ecclesiastical music the words are the mistress and queen, while the notes are the handmaiden and subject. Divine praises are for the benefit of those who offer them rather than of Him to whom they are offered. Hence it is that the Church allows some of her prayers to be sung, in order that her sacred words may then be better heard and understood; may make a greater impression upon our imaginations, and so upon our minds and hearts, than they might do if they were only said; so that our weakness may be enforced by the words when they are sung, and raised up to some higher knowledge and deeper love of heavenly things. (Cf. 2. 2æ. q. 91. a. 1. 2.)

Hence we should never forget the rule given by Guidetti "*Cantabis syllabas sicut pronuntiaveris.*" "Sing the words with notes as you would declaim them without notes." And so, as far as the purposes of this chant require it, the Latin to be sung should be first well learnt, and then delivered with faultless, clear, artistic pronunciation, accentuation and declamation.

When several sing together, they should sing as if with one voice; and hence, in the case of the more elaborate pieces which are sung by the choir properly so called, it is almost essential to sing from one copy only, and to pay strict attention to the beat of a leader.

The notes used in this edition are (a) the *virga*, or long note :

this is used either to indicate an accented syllable, or else to
